Harvesting With the Don Jeer LaserMatic S-3000 5

Using dual Pango Ceres V galvos, the S-3000 (dubbed the "Wheat Whacker") sets a new standard in coherent crop cropping.

Working With the CrowZapper - Caw B-Gone's Laser Scarecrow 9

Dealing with these Avian pests just got easier - combining sophisticated radar ranging with pattern recognition software, crows are turned into well-cooked organic fertilizer.

Getting the Most from Your Egg Laser Scanner ... 15

With the advent of genetically-modified hens that lay eggs that are already bar-coded, you can now manage your inventory like a pro.

Barn Lasing - Community-based Farm Building Clean up 21

Barn getting a bit faded and dusty? Call on your neighbors to clean up with a high tech blast of laser goodness.
